Bulletin #13 of 2014. December 29, 2014

Change to Product

**Air Train Stand Off Material & Part Number Change.
545-066 Stand Off Replaces 545-065 Metal Stand Off.
545-065 is NOW OBSOLETE**

Products Affected: KMB 28 Band Mask® Air Train Stand Offs only.

Mask P/Ns 500-028 KMB 28 Band Mask® w/Posts, 500-029 KMB 28 Band Mask® w/MWP.

Kirby Morgan Dive Systems Inc. is pleased to announce that the material of the Stand Off for the KMB 28's air train has changed from the original metal (P/N 545-065: obsolete) to an exceptionally strong thermoplastic. The new P/N is 545-066.

Thermoplastic is a non-magnetic, non-conductive and non-corrosive material that also offers a considerable cost savings, giving the new P/N 545-066 (US retail \$5.81) a distinct advantage over the original P/N 545-065 (US retail \$23.25).

KMB 28 Airtrain Only
