Bulletin #4 of 2013. November 25, 2013 Change to Product Chin Strap Assembly, 505-111 Lengthened

Helmets affected: SuperLite® 17B, 17C, 27®, KM 37, KM37NS, KM 47, KM 57, KM 77, KM 37SS.

Parts affected: 505-111 Chin Strap Assembly (not sold separately*).

**Sold as:*

505-748 Chin Strap Assembly with snaps, SS (order for stainless steel helmets).

525-716 Chin Strap Assembly Kit (order for fiberglass helmets).

All the following Neck Ring Assemblies: 505-090, 505-093, 505-094, 505-095, 505-097, 505-100, 505-104, 505-117, 505-118, 505-119, 505-120.

Effective now, Kirby Morgan Dive Systems Inc. is shipping chin straps lengthened from 16 inches to 17 & 7/8 inches in the products above. The longer strap will increase comfort in the chin area for many divers. The extra length will also add ease to donning & doffing the helmet.

OLD STYLE

CURRENT STYLE

No price change for 2014.

The internal helmet chin strap assembly is intended as a secondary helmet retaining device and its use is recommended by KMDSI. For further information on the chin straps & retaining systems, please review the KMDSI General Notice #1 of 2009.

Go to Product Bulletins on the Kirby Morgan website: www.kirbymorgan.com

Please contact your local KMDSI dealer or e-mail sales@kirbymorgan.com for more information.
