NOTICE for Kirby Morgan Dealers Inspection Tag, Shipping in Place of the Inspection Report March 30, 2018

Beginning April of this year, Kirby Morgan introduces the Inspection Tag, shipping in place of the Inspection Report.

An Inspection Tag will be included with every Kirby Morgan complete unit when shipped. (Helmet, BandMask®, KMACS-5...).

Signed and dated, the tag serves as verification of equipment inspection by Kirby Morgan Quality Assurance personnel. This inspection takes place just prior to the unit being prepared for shipment.

The Kirby Morgan Inspection Tag provides a current and valid inspection date, and confirms the product is **brand new** from the factory.

Technical information, such as inspection reports, will remain as internal documents only.

Any questions, please contact sales@kirbymorgan.com or kate@kirbymorgan.com.
