

Friday 18th March 2020

To whom it may concern,

The Covid19 (CORONA virus) infection rate keeps on raising in Europe. In order to try to maintain this outbreak several European governments have decided to impose some new temporary lock down regulations. While at this writing there are no known cases within our organisation, we need to adapt to the situation.

Realizing the severity of the situation and keeping the security of our personnel and clients as our primary concern, we have decided to apply the following rules as of the 18th of March 2020 12h00.

- The office will be closed to non-essential personnel until April 5th 2020
- We will upgrade our cleaning and disinfecting procedures to higher standards where possible
- All life supporting equipment will be sealed separately & disinfected throughout the maintenance procedures in order to avoid any possible cross contamination.
- All orders can still be processed via email

As soon as the situation develops, we will keep you updated.

Sincerely,

Olivier Ramos
